EDUCATION

Chandigarh University (CGPA - 8.09)

B.E, Computer Science Engineering

Gharuan, Punjab

Aug 2023 – May 2027

Oxford Public School (91%)

PCM + CS

Pragati Path Ranchi, Jharkhand

March 2021 – April 2022

EXPERIENCE

Autonomous Navigation and Computer Vision Intern

Rekhi Foundation, MIND Lab, Chandigarh University

May 2025 – June 2025

Gharuan, Punjab, India

- Built real time navigation system using SLAM and LiDAR for mapping and localization
- Optimized system for low latency processing in real-time environments
- Developed computer vision pipeline using YOLOv5 for object detection
- Implemented OCR pipeline for text extraction using OpenCV and Tesseract

PROJECTS

Campus Connect V2.0 | Node.js, Express.js, Socket.io, Cloudinary, MongoDB

Sept 2026 – Oct 2026

- Upgraded a campus social platform with real time chat, events, notifications, and peer discovery.
- Implemented bcrypt hashing, legacy password migration, rate limiting, and persistent sessions.
- Integrated Socket.io messaging and MongoDB TTL indexes for 24 hour story expiration.
- Developed REST APIs, infinite scrolling, Cloudinary uploads, and cascading post cleanup.
- GitHub Repository

Intelligent Document Processing System | Go, Echo, MinIO, Next.js, MongoDB

Dec 2025 – March 2026

- Built document parsing and text extraction pipelines using Apache Tika
- Integrated ClamAV for malware scanning of uploaded documents
- Designed microservices with asynchronous document processing
- Implemented metadata indexing and NLP-based document retrieval
- GitHub Repository

Internship Assistant | Django, Python, Pandas, Sentence Transformers, PyTorch

Feb 2025 – March 2025

- Built ETL pipeline for scraping, cleaning, and storing internship data
- Developed recommendation system using sentence transformers
- Designed backend APIs for query handling and ranking logic
- GitHub Repository

TECHNICAL SKILLS

Programming Languages: C++, Go, Python, JavaScript, Shell/Bash

Core CS: Data Structures & Algorithm, OOP, System Design, DBMS, Computer Networks, Operating System

Backend & Web: Node.js, Express.js, Django, React, Next.js, REST API Development, HTML, CSS

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, Postman, Docker, Linux

Robotics & AI: ROS2, SLAM, LiDAR, YOLOv5, Pandas, NumPy, Sentence Transformers

ACHIEVEMENTS & LEADERSHIP

- **Codeforces** (1601) , **LeetCode** (400+)
- NPTEL Cloud Computing Certification (Elite), IIT Kharagpur – Top 5%, 83% score
- Secretary, ROBO-VERSE Club (Chandigarh University), leading robotics and AI technical initiatives
- Contributing Author, Book Chapter on Large Language Models (LLMs), Elsevier (Under Publication)
- Co-Author, research paper on blockchain technology and decentralized systems, I3CSET-2025 (Under Publication)
